

# FTP instructions

---

To connect to the liberduplex FTP Server you must do it through an ftp program. You cannot access our ftp via web explorer. In the case of not having an ftp program installed or available, you can download a free and fully functional one such as filezilla (Of course there are many other options) at the following address:

- PC Windows XP, Vista and Windows 7 and 8 are supported, each both 32 and 64 bit.:  
[http://download.filezilla-project.org/FileZilla\\_3.7.1.1\\_win32-setup.exe](http://download.filezilla-project.org/FileZilla_3.7.1.1_win32-setup.exe)
- Mac (Intel)  
[http://sourceforge.net/projects/filezilla/files/FileZilla\\_Client/3.7.1.1/FileZilla\\_3.7.1.1\\_i686-apple-darwin9.app.tar.bz2/download](http://sourceforge.net/projects/filezilla/files/FileZilla_Client/3.7.1.1/FileZilla_3.7.1.1_i686-apple-darwin9.app.tar.bz2/download)
- Mac (PowerPC G4)  
[http://sourceforge.net/projects/filezilla/files/FileZilla\\_Client/3.7.1.1/FileZilla\\_3.7.1.1\\_powerpc-apple-darwin9.app.tar.bz2/download](http://sourceforge.net/projects/filezilla/files/FileZilla_Client/3.7.1.1/FileZilla_3.7.1.1_powerpc-apple-darwin9.app.tar.bz2/download)  
Requires OS X 10.5 or newer

Please remember the user and password words are case sensitive.

Address: ctp.liberduplex.com (careful now, **"ctp" and not "ftp"**)
